

Accelerate Your Ability to Simulate

Courses that can take you from novice to knowledgeable

SDI's 2008 TRAINING SCHEDULE

<i>Introduction to Simulation and Model Building Series</i>	
Fundamentals of Simulation Using ExtendSim™ (VERSION 7) In this 3-day course you will gain a solid ground-work in the principles of simulation while you learn to use ExtendSim Version 7. \$1500 per participant	Fundamental and Advanced ExtendSim™ (VERSION 7) This 5-day course teaches you the basics of simulation and sharpens your discrete event simulation skills by putting them to use in practical and realistic modeling situations. \$2500 per participant
February 25 - 27	Knoxville, TN
June 2 - 4	Knoxville, TN
July 28 - 30	Green Bay, WI
September 15 - 17	Milwaukee, WI
November 3 - 5	Knoxville, TN
February 25 - 29	Knoxville, TN
June 2 - 6	Knoxville, TN
July 28 - August 1	Green Bay, WI
September 15 - 19	Milwaukee, WI
November 3 - 7	Knoxville, TN
<i>Advanced Modeling with Extend™ Series</i>	
Programming in ModL (Online Course !) Learning how blocks communicate is the key to truly understanding how Extend works. This 3-day course is for anyone who wants to know more about how Extend works "behind the scenes." Learn to modify existing blocks and build your own blocks. \$1600 per participant	
CALL TO SCHEDULE	
Online courses are conducted through an online web conferencing program with an instructor <i>live</i> . The instructor hosts online office hours outside of the scheduled class time so students can get personal attention.
